## DUTIES

An Experimental Officer is mainly deployed on duties related to weather forecasting, aviation weather services, radiation monitoring, climatology, physical oceanography, geophysics, time services, data processing and information technology.

An Experimental Officer may be required to attend professional training course in meteorology during his/her probationary/trial period. He/She may be required to perform 'on-call' duty and work outdoors, shifts, outside normal office hours, or in adverse weather conditions.

## ENTRY REQUIREMENTS

- (a) A Bachelor's degree in Physics, Mathematics, Meteorology, Computer Science, Nuclear Science, or Electronic Engineering, from a university in Hong Kong, or equivalent; and
- (b) Meeting the language proficiency requirements of 'Level 1' results in the two language papers (Use of Chinese and Use of English) in the Common Recruitment Examination, or equivalent.
